About the Tournament

COPA NAKA was founded with the vision of creating an international youth football tournament that goes beyond competition. It serves as a platform for cultural exchange, friendship and youth development, bringing together young players from different countries through the shared language of football.

The tournament is jointly organised by Youth Football Development (Thailand) Co., Ltd. (OIS Thailand) and its Singaporean partner, Dynamique Konzepts Pte Ltd, combining regional expertise with professional event management.

Playing Surface & Field Quality

The football pitches are surfaced with Paspalum grass, the same premium turf used across the golf course. This species is ideal for football due to its lush, soft and dense texture, providing excellent ankle support and helping to reduce injury risk during training and matches.

The fields are meticulously maintained using modern machinery and managed by an experienced professional turf-care team.

Our maintenance standards follow the same rigorous procedures used for world-class golf courses. With dedicated equipment and expert specialists, the pitches are regularly cared for through:

- * Grass cutting, maintained between 20–35 mm
- * Surface levelling and grooming
- * Scheduled watering
- * Fertilization programs
- * Verticutting
- * Pest and turf health control
